SANDEEP M. BAIKAN

UI Engineering Lead | MERN Full Stack

+91-9175844290 | sandeep.baikan@gmail.com | sandeepbaikan.github.io

PROFESSIONAL SUMMARY

Frontend Engineering Lead with 10+ years of experience building responsive, scalable and high-performance web applications across e-commerce, enterprise and data-centric products. Strong hands-on expertise in React, Vue.js, JavaScript, TypeScript, HTML5, CSS3 and modern UI engineering, with experience translating product and Figma requirements into reusable interfaces, improving frontend performance, integrating APIs, and driving product delivery. Experienced in mentoring engineers, code reviews, team management, Agile execution and contributing to frontend architecture and solution design.

CORE SKILLS

Frontend & UI: React.js, Vue.js, JavaScript, TypeScript, HTML5, CSS3, jQuery, Responsive Web Design, SCSS/SASS, LESS, Material UI, Bootstrap, Figma-to-UI

API & Full Stack: Node.js, Express.js, REST API, GraphQL, PostgreSQL

Testing & Quality: Cypress, Jest, Testing Library, Code Review, Web Performance Optimization, GTmetrix

Tools & Delivery: Git, VS Code, GitHub Copilot, GPT, JIRA, CI/CD, Agile, Sprint Planning, Product Delivery

Visualization: D3.js, Data-centric UI and dashboard development

Architecture: Frontend Architecture, Solution Design, Reusable UI Patterns, Technical Decision-Making

Leadership: Team Management, Mentoring, Code Review, Engineering Guidance, Sprint Execution, Cross-team Delivery Coordination

PROFESSIONAL EXPERIENCE

Coditas Solutions LLP, Pune | Tech Lead / Frontend Lead | 2016 - Current

- Lead frontend engineering and delivery for customer-facing and enterprise web applications, with primary focus on UI quality, responsive implementation, maintainability and performance.
- Translate product requirements and Figma designs into reusable frontend solutions using React, Vue.js, JavaScript, TypeScript, HTML and CSS.
- Integrate frontend applications with REST APIs and GraphQL-based services and collaborate across UI, backend and product teams during implementation.
- Drive code reviews, technical guidance, JIRA-based sprint execution, team management and product delivery across multiple frontend projects.
- Mentor engineers through implementation reviews, debugging support, coding guidance and delivery planning while contributing to solution design and frontend architecture decisions.
- Use Git-based workflows, automated testing practices and CI/CD processes to support consistent engineering delivery.

LEADERSHIP & DELIVERY HIGHLIGHTS

- Led frontend teams of up to 6 engineers across e-commerce and enterprise projects.
- Own sprint planning, task prioritization, code review, mentoring, delivery tracking and issue resolution.
- Balance hands-on UI engineering with technical leadership, product delivery and architecture contribution.

PROJECT EXPERIENCE

Excel Add-in | Frontend Lead | Jan 2025 - Current

Tech: React, HTML, CSS, Excel Add-in, REST API

- Build custom-function and UI workflows for real-estate data use cases across CRE, CMBS and CLO datasets.
- Own sprint planning and product delivery, coordinate implementation priorities, review code and support engineers on issue resolution.
- Contribute to frontend solution design for data-centric workflows and reusable implementation patterns.

Fynd Platform | Frontend Lead | Jan 2021 - Dec 2024

Tech: React, Vue.js, JavaScript, HTML, CSS, REST API, Git

- Designed and developed e-commerce storefront themes from Figma designs, including reusable UI components, responsive layouts and end-to-end customer journeys.
- Led design and development of the Astra theme and contributed to multiple React-based themes and existing Vue storefronts.
- Improved storefront performance and GTmetrix scores through frontend optimization, rendering improvements and targeted UI performance tuning.
- Led a 6-member frontend team, mentored developers, performed code reviews and drove sprint execution and product delivery.
- Contributed to frontend architecture and technical decisions for scalable theme development and shared storefront patterns.

DMart Ready | Frontend Lead | Mar 2019 - Dec 2020

Tech: React.js, JavaScript, HTML, CSS, REST API

- Designed and developed frontend experiences for an enterprise retail solution using React, HTML and CSS.
- Handled complex UI requirements, integrated application flows with backend services and contributed to solution design decisions.
- Led a 6-member frontend team through sprint planning, mentoring, code review and delivery.

Pediatric Network | Frontend Developer | Jan 2019 - Mar 2019

Tech: Angular, HTML, CSS, D3.js

- Built data-analysis interfaces and chart-based visualizations with emphasis on clear data presentation and usable UI.

Workspaces (ASG) | Frontend Developer | Jan 2017 - Jan 2019

Tech: Polymer.js, Angular, JavaScript

- Developed reusable widgets and workspace experiences in sprint-based enterprise delivery environments.

Online Classroom (Yellowdig) | Frontend Developer | Jun 2016 - Jan 2017

Tech: HTML, CSS, Framework7

- Developed responsive product features from specifications for an online classroom application.

EDUCATION

M.CS - Computer Science | Nowrosjee Wadia College, Pune University | Grade B

B.CS - Computer Science | Leelawati College of Commerce & Computer Studies, Pune University | Grade A
